1 The interest rate (rate) and annual percentage yield (APY) are variable, may change at any time without notice, and are generally effective as of the date indicated above.
2 Relationship Bonus Interest Rates are paid on eligible accounts when the account owner also has an open Premium Interest Checking account. Eligible accounts are personal savings (excluding Young Savers), money market, CD, and IRA accounts. Total Relationship Rates are the sum of the Standard Interest Rate and the Relationship Bonus Rate Increase listed for the specific product. The rate increase amount is determined by looking at the previous day's current balance in your eligible accounts, and then adding the corresponding increase amount to the standard rates listed in the standard rate table. After you have opened your account, it may take up to 10 business days for your new relationship pricing to apply. Because rates are paid based on the daily balance method, the rate earned on an account may fluctuate during a given statement period depending on the balances you keep in your account. Interest earned will be expressed on your account statement as the Annual Percentage Yield Earned (APY-E).

1 For Certificate of Deposit accounts, the interest rate disclosed at account opening is fixed and will not change until the CD renews. Any withdrawal of interest prior to maturity will reduce earnings.

2 Relationship Bonus Interest Rates are paid on eligible accounts when the account owner also has an open Premium Interest Checking, Premier Checking or Premier Elite Checking account. Total Relationship Rates are the sum of the Standard Interest Rate and the Relationship Bonus Rate Increase listed for the specific product. The rate increase is applied on CD accounts at account opening or when the CD renews, and will be calculated on the current balance in the eligible account at that time and does not change for the term of the CD.

1 The interest rate (rate) and annual percentage yield (APY) are variable, may change at any time without notice, and are generally effective as of the date indicated above.
2 Relationship Interest Rates are paid on eligible accounts when the primary owner of the Business Connect Checking, Community Checking or Business Interest Checking account is also an owner of the linked interest bearing account. Eligible accounts are business savings or money market accounts opened on or after October 12, 2017. Total Relationship Rates are the sum of the Standard Interest Rate and the Relationship Bonus Rate Increase listed for the specific product. The rate increase amount is determined by looking at the previous day's current balance in your eligible accounts, and then adding the corresponding increase amount to the standard rates listed in the Business Banking Deposit Rates section above. After you have opened your account, it may take up to 10 business days for your new relationship pricing to apply. Because rates are paid based on the daily balance method, the rate earned on an account may fluctuate during a given statement period. Interest earned will be expressed on your account statement as the Annual Percentage Yield Earned (APY-E).

Rates effective as of March 28, 2024

1 For Certificate of Deposit accounts, the interest rate disclosed at account opening is fixed and will not change until the CD renews. Any withdrawal of interest prior to maturity will reduce earnings.

2 Premium Business Certificate of Deposit is available to customers when the account owner also has an open Business Connect Checking, Business Interest Checking, Community Checking, or Commercial Analyzed Checking account.

## Public Funds Account Banking Deposit Rates

"APY" refers to the annual percentage yield, and "Rate" refers to the interest rate.

    2 Relationship Bonus Interest Rates are paid on eligible accounts when the account owner also has an open Premier Checking account. Eligible accounts are personal savings (excluding Young Savers), money market, CD, and IRA accounts. Total Relationship Rates are the sum of the Standard Interest Rate and the Relationship Bonus Rate Increase listed for the specific product. The rate increase amount is determined by looking at the previous day's current balance in your eligible accounts, and then adding the corresponding increase amount to the standard rates listed in the standard rate table. After you have opened your account, it may take up to 10 business days for your new relationship pricing to apply. Because rates are paid based on the daily balance method, the rate earned on an account may fluctuate during a given statement period depending on the balances you keep in your account. Interest earned will be expressed on your account statement as the Annual Percentage Yield Earned (APY-E)
